

PSYCHEDELIC-ASSISTED THERAPY TRAINING

January 2026

A PROGRAM FOR THE TRAINING OF PSYCHEDELIC THERAPISTS FOR
INDIVIDUAL AND SOCIAL TRANSFORMATION

New paradigm in mental health: **PSYCHEDELICS**

Science, consciousness and ancestral wisdom

- Evidence based on **modern clinical and neuroscientific research.**
 - At the same time, psychedelic medicines are rooted in centuries of ancestral **knowledge of indigenous peoples.**
-

Response and Hope
to a Global Crisis

A new vision of psychedelic care

- BMed Global's introductory course invites you to explore the art of holding therapeutic space through a somatic, creative, trauma-informed, and socially conscious approach.
- Through meditation, expressive art, movement, voice work, and various breathing techniques in a natural setting, you will cultivate an embodied experience of presence and deep listening.
- You will embark on a living and transformative learning process. This path will allow you to integrate the different levels of being and put them at the service of therapeutic support and collective well-being.
- Becoming an active agent of change for people's health and well-being.

HEALING happens in RELATIONSHIP

Our Model: Residential & Online

➤ **Online Modules - 50 hours**

The online modules consist of an essential theoretical core covering various topics related to psychedelic-assisted therapy. They include live and recorded lectures, reading materials, review questions, and in-depth material.

➤ **Residential Module - 50 hours**

An experiential intensive lasts 6 days and 5 nights.

➤ **Individual Consultations - 6 hours**

Over the two years, a total of 16 individual consultations with tutors are required. These can be conducted in person or online. Each consultation lasts one hour.

➤ **Self experience - 34 hs**

During these months, both group and individual dynamics will be carried out with a therapeutic focus. This "self-experience" will be the foundation of the personal process that will take place in the training, and its main objective will be to catalyze individual experiences and promote their integration.

Our Model: Residential & Online

Important: This module is a prerequisite for accessing the rest of the BMed Global vocational training program. Passing it is a necessary condition for continuing with the program's advanced modules.
